Computational Fairness
Monday, November 14th

1 Discuss

Comment on this paper. See the course guidelines for submitting comments for some suggested questions.

2

What do the authors mean by "human-inspired computational fairness," and what is new in their models that captures this idea?

3

Suggest some formulations of collective utility functions. What are the pros and cons of each of your suggestions?

4

Can you think of another game where the authors models would be applicable?
